Mr. Richard Whirley
System X Designs
5121 Swann Street
Covington, GA 30014

Richard

Thank you for a wonderful job on our association's website. It was and continues to be a pleasure working with you. Your attention to detail and willingness to hear our needs ensured the success of this project. I am very proud to have our residents visit our website. As an organization of volunteers, this site has given us a more effective and timely way to communicate and provide information to our residents.

Your continued support after our go live date has been great. As with any project, there have been tweaks and adjustments. Your timely response whether with a training session or making a change has greatly attributed to the success of our website.

It would be my pleasure to recommend System X Designs. Our site has you listed as our preferred website design and hosting firm.

Respectfully,

Tami Schaller
President
