Covington, GA 30014

Richard,

I wanted to let you know how much I appreciate the hard work and fast turn-around for our projects. Your team communicated effectively throughout the process and completed the projects both before the deadline and within the budget that agreed on. We couldn't be happier with the way the sites turned out both in their mobile forms as well as the desktop versions.

Specifically, I'd like to thank you for the incredible results that you helped us obtain. Within just a few weeks of launching a new location, we are now the number one result on Google for the term that we specifically wanted to target. This was accomplished even though an industry competitor with a very established website had been in our geographic area for 40 years. Incredible results- just as you promised.

Your team has been a key differentiator in our business, and I would not hesitate to recommend your services to anyone that desired to have a professional online-presence for their business. Again, I appreciate the fantastic results, and I look forward to many more projects together as both of our businesses grow.

Sincerely,

Eric Adcock
