

To whom it may concern:

REF: Richard Whirley and System X Designs

I have been pleased to work with Richard on a new website for South River Gun Club and at every step during the process, Richard has done first class work and provided the same in technical support. Unlike some other companies, Richard answers emails promptly and gives you step by step instructions on how to correct your problem, edit your site, add material, etc. He does this in a way that is easy for the layman and novice to understand, but will also do the work himself if you choose.

I wholeheartedly recommend Richard and System X Designs for any website creation, modification or other internet related website work you may have in mind.

Regards,

Bill Clay, Manager

South River Gun Club, Inc.
